The staff have created some new areas in our garden for the children to explore...

Stepping logs

- To support gross motor skills, balance and co-ordination.
- To encourage turn taking and patience.

Bark area

- To extend the children's interest in digging and construction.
- A versatile area which can be used to support all areas of development. So far, we have used this for small world set ups with dinosaurs and farm animals, digging and transferring with buckets and wheelbarrows, as well as bug and insect searching. We can't wait to provide more engaging set ups for the children to explore and learn.

Role play and dressing up!

This month we have had a hairdressers, doctor's surgery, car wash, and fancy-dress party in the nursery!

This has supported the children to enhance their social skills, communication and language, imaginative play and motor skills, all whilst having fun!

A picnic in the park!

We have been making the most of the lovely weather and spent the afternoon at the park. The children had so much fun on the swings, slides, and climbing frames. We finished off the afternoon with a lovely picnic made by our nursery chef, Sarah.
